**The HR Manager
LIS Nepal Pvt. Ltd.
Nepal**

Respected Sir/Madam,

I am applying for the **Associate Software Engineer** role at your company. After reviewing your job description, it's clear that you're looking for a candidate that is extremely familiar with the responsibilities associated with the role, and can perform them confidently. Given these requirements, I am certain that I have the necessary skills to successfully do the job adeptly and perform above expectations.

I am a results-oriented college graduate **(Computer Science and Engineering)** from **Nagarjuna College of Engineering & Technology, Bangalore**. During the course of my academic career, I also managed to accrue nearly 12 months of work experience. I had the privilege of working for Global IT Solution & Service in a Network Support Staff role (Remote Support) in my free time, where I learned valuable professional skills. In both my academic and professional life, I have been consistently praised as focused by my professors and peers. Along with this I have done Java and Web training in a reputed institute. Whether working on academic, extracurricular, or professional projects, I apply proven problem-solving, teamwork, and technical skills, which I hope to leverage into the **Associate Software Engineer** role at your company.

After reviewing my resume, I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your organization. Please find my detailed CV for your consideration. Should you need any more details, please do let me know.

Thank you for your consideration and I look forward to hearing from you soon.

Sincerely,

Diwash Joshi
